

KIMERUD BOTANISK GIN

Kimerud Botanisk Gin is a careful selection of mediterranean and scandinavian herbs , most of which are picked in kimerud farm's herbal garden. Some of the specially selected herbs that make up the main flavors of this gin are: absinthium, thyme, oregano, basil and five mint species. The spirit is distilled 5 times and we add only pure mountain water after distillation. Distilled in the same way as an "London Dry Gin". You can enjoy this gin alone in the glass, or with Tonic Water G.T and as a new approach to cocktails.

Tasting Notes

Finely balanced herbal taste of oregano, thyme, basil and mint with a fresh summery spiced flavor with a long finish.

Country: Norway

Distillery: Kimerud

Alcohol: 42,2% alc.

Age: unaged
