

## IPS - INFERNAL PERSONAL SELECTION

---

Infernal Personal Selection - This is carefully curated rum that reflects our personal preferences. It's a journey into—or rather, out to—the most exciting, small, and exclusive corners of what rum can be when it is far more than just your tasty everyday drink. It is elitist and ambitious, exemplifying how we have, over time, become cultivated rum connoisseurs who appreciate the complex drinking experience that rum—on so many levels—can offer.

This < > H is produced using Pot Still distillation and aged in American white oak—both fresh and ex-Bourbon casks. The rum comes from a micro-production in Trelawny Parish, Jamaica, and offers aromas of ripe pineapple, banana, and melon mixed with notes of spices, oak, and beeswax. On the palate, it's funky with fresh flavors of pineapple and mango, hints of honey and black pepper, and a long finish of olives and tropical fruits.\*
