WORTHY PARK SILVER

Worthy Park Silver is a 100% Copper Pot Distilled rum, that offers the full Jamaican rum flavor but at an approachable 40% abv. To craft this rum, we blend three different unaged rum marks, with fermentation times ranging from 30 hours up to three weeks. A great alternative to our Overproof rum, Worthy Park Silver stands out in the market for its flavor intensity relative to its price, making it an excellent choice for those looking to explore authentic Jamaican rum.
